

## Adore Softphone App for Smartphones

Adore Softphone App for Smartphones supports multiple platforms, including Apple iOS, Android OS and Windows Mobile OS smartphones. This is a free softphone with support and information located at: [www.adoresoftphone.com](http://www.adoresoftphone.com)

To install and configure this softphone, please first download the app from the App Store (iOS), Windows Store, or Google Play (Android).

**Note:** When looking up this softphone there will be three versions. You will want to download the actual softphone app specifically.

After installing you will be prompted to setup the softphone. Please setup the softphone using the credentials generated by your 3rd party softphone selection and enter them as shown.

AdoreSoftphone™

Unregistered

<input type="text" value="SIP Server IP"/>	VirtualPBX.net
<input type="text" value="Enter Proxy(Optional)"/>	Don't enter anything
<input type="text" value="Enter User Name"/>	Numeric Username
