

Let's get started. Call or text us at (888) 825-0800.

Connecting real people and real solutions for nearly 30 years with Business Phone.

VirtualPBX pairs enterprise-level VoIP with real humans. Nearly 30 years in business, US-based, founder-led, and available 24/7. We solve problems, share solutions, and help small businesses level the playing field.

Show Up Like A Pro

Update menus, greetings, and hold messages in minutes while branded caller ID keeps your name front and center. Now every call has that enterprise-level polish, without the enterprise-level price.

Stay In Sync, Wherever You Work

Whether in the office, hybrid, or on the go, your team stays aligned. Ring groups, secure direct lines, and mobile access make sure calls reach the right place every time.

Build In Your Back-Up Plan

Every call, every detail, every time. Replay conversations, back-up your data, and train your team with real calls from your own customers.

Change What You Need, When You Need

Add or reassign numbers instantly. Adjust for seasonal or short-term needs. Move lines, users, and numbers without IT or extra fees.

DAY 1

Keep your number or choose a new one, and start using your account.

WEEK 1

You're onboarded. Most systems are customized and live.

EVERY DAY

Real humans, real help. Experts available 24/7 for questions and support.

GETTING STARTED IS AS EASY AS 1-2-3

Never answer another spam call again.

Integrate with your CRM and favorite tools.

Sort calls. Save time. Look good doing it.

Speak the language of the people—text.
